Subject: Regarding Your Request for Assistance from the Governor's Office  
Date: Thursday, June 11, 2009, 7:59 PM

Dear Paulette ,

Thank you for contacting Governor Ritter's Citizen's Assistance office. Our office will strive to assist you in anyway possible. Please understand that legally there are some issues that are outside our jurisdiction. If that is the case we will assist you in finding the appropriate resources.

Due to the high volume and complexity of requests that this office receives please allow 5 business days for a response.

Form Type: Citizen Assistance

Type of Assistance: Health Care Policy and Financing

Subject: Disabled fund being cut

Request Description: Dear Governor Ritter,

We understand that the State of Colorado is going to severely cut the funds currently being provided to developmentally disabled individuals. We have been advised that these cuts will be implemented on July 1st. The impact of a cut of up to 50%, which is being talked about, would be devastating to the care currently being provided to these individuals.

A cut of 50% in the services provided to the deaf and blind adult son, Sean, of our friends, Mick and Nancy Wenlock, could undo the progress he's made in his life to catastrophic results that not only impact Sean but his entire family. For further specific information on Sean Wenlock please see:

(<http://theseanproject.blogspot.com/> )

Please don't cut the funds to the developmentally disabled which impacts lives.

Sincerely,  
Terrance R. Mahurin, Esq.  
Paulette M. Mahurin, R.N., F.N.P.

Once again, thank you for taking the time to communicate with our offices.

Sincerely,

Governor Ritter's Citizen's Assistance Office
