

Dear Bishop Blaire,

I just read your statement in the Bishop's Conference asking the lawmakers during budget deliberation to give top priority to the disabled. Thank you so much for this.

I am a Nurse Practitioner in living in Ojai, California. I do a lot of volunteer work with the needy which is why I am writing to you. I have two friends with a severely disabled son living in Denver Colorado. They have only recently and without any advance warning been informed their son's support will be cut by 56%. This may leave the family devastated. The child has been deaf and blind since birth and is also dependent on care 24/7.

What I am asking from you is do you have the name of a Bishop in Denver or the Colorado area I might have them contact to help with their cause? Any assistance you can render will be most appreciated and serve to help those disabled in Colorado.

Thank you very much for all you're doing for those in California who can't do for themselves.

Very sincerely,  
Paulette Mahurin
