To whom it may concern;

We understand that the State of Colorado is going to severely cut the funds currently being provided to developmentally disabled individuals. We have been advised that these cuts will be implemented on July 1st. The impact of a cut of up to 50%, which is being talked about, would be devastating to the care currently being provided to these individuals.

A cut of 50% in the services provided to the deaf and blind adult son, Sean, of our friends, Mick and Nancy Wenlock, could undo the progress he's made in his life to catastrophic results that not only impact Sean but his entire family. For further specific information on Sean Wenlock please see:

(<http://theseanproject.blogspot.com/>)

Please have your resources bring this injustice to light to help assist those who do not have a voice to do it for themselves.

Sincerely,

Terrance R. Mahurin, Esq.

Paulette M. Mahurin, R.N., F.N.P.
